

Figure 1: A diagram illustrating a system architecture. The diagram shows a central cloud labeled 'Internet' (02) connected to two client boxes (01) labeled 'client 1' and 'client N'. The 'client 1' box is connected to the 'Internet' cloud, which is in turn connected to a large box labeled '03'. This box '03' contains several sub-components: 'Server environment' (01), 'Sub-APP Config' (06), 'App Dispatcher' (05), 'Sub-APP definition' (07), and multiple 'Sub-APP' boxes (08, 09, 10). The 'Sub-APP' boxes are connected to the 'App Dispatcher' box.
